

Type localities

1 arthurite	10 chrisstanleyite	19 langite	28 saponite
2 barstowite	11 churchite-(Y)	20 liroconite	29 stannite
3 bassettite	12 clinoclase	21 liskeardite	30 stokesite
4 bayldonite	13 conchellite	22 lizardite	31 tristannite
5 botallackite	14 cornubite	23 ludlamite	32 uranospathite
6 bournonite	15 cornwallite	24 olivenite	33 vivianite
7 chalcociderite	16 ferrökesterite	25 pharmacosiderite	34 vochtenite
8 chenevixite	17 fluellite	26 rhabdophane-(Nd)	35 wavellite
9 childrenite	18 jamesonite	27 russellite	

Devilline, tennantite and woodwardite have unspecified Cornish type localities

+ mines, quarries, etc.
 ● villages, small towns
 ● towns
 ● large towns, cities

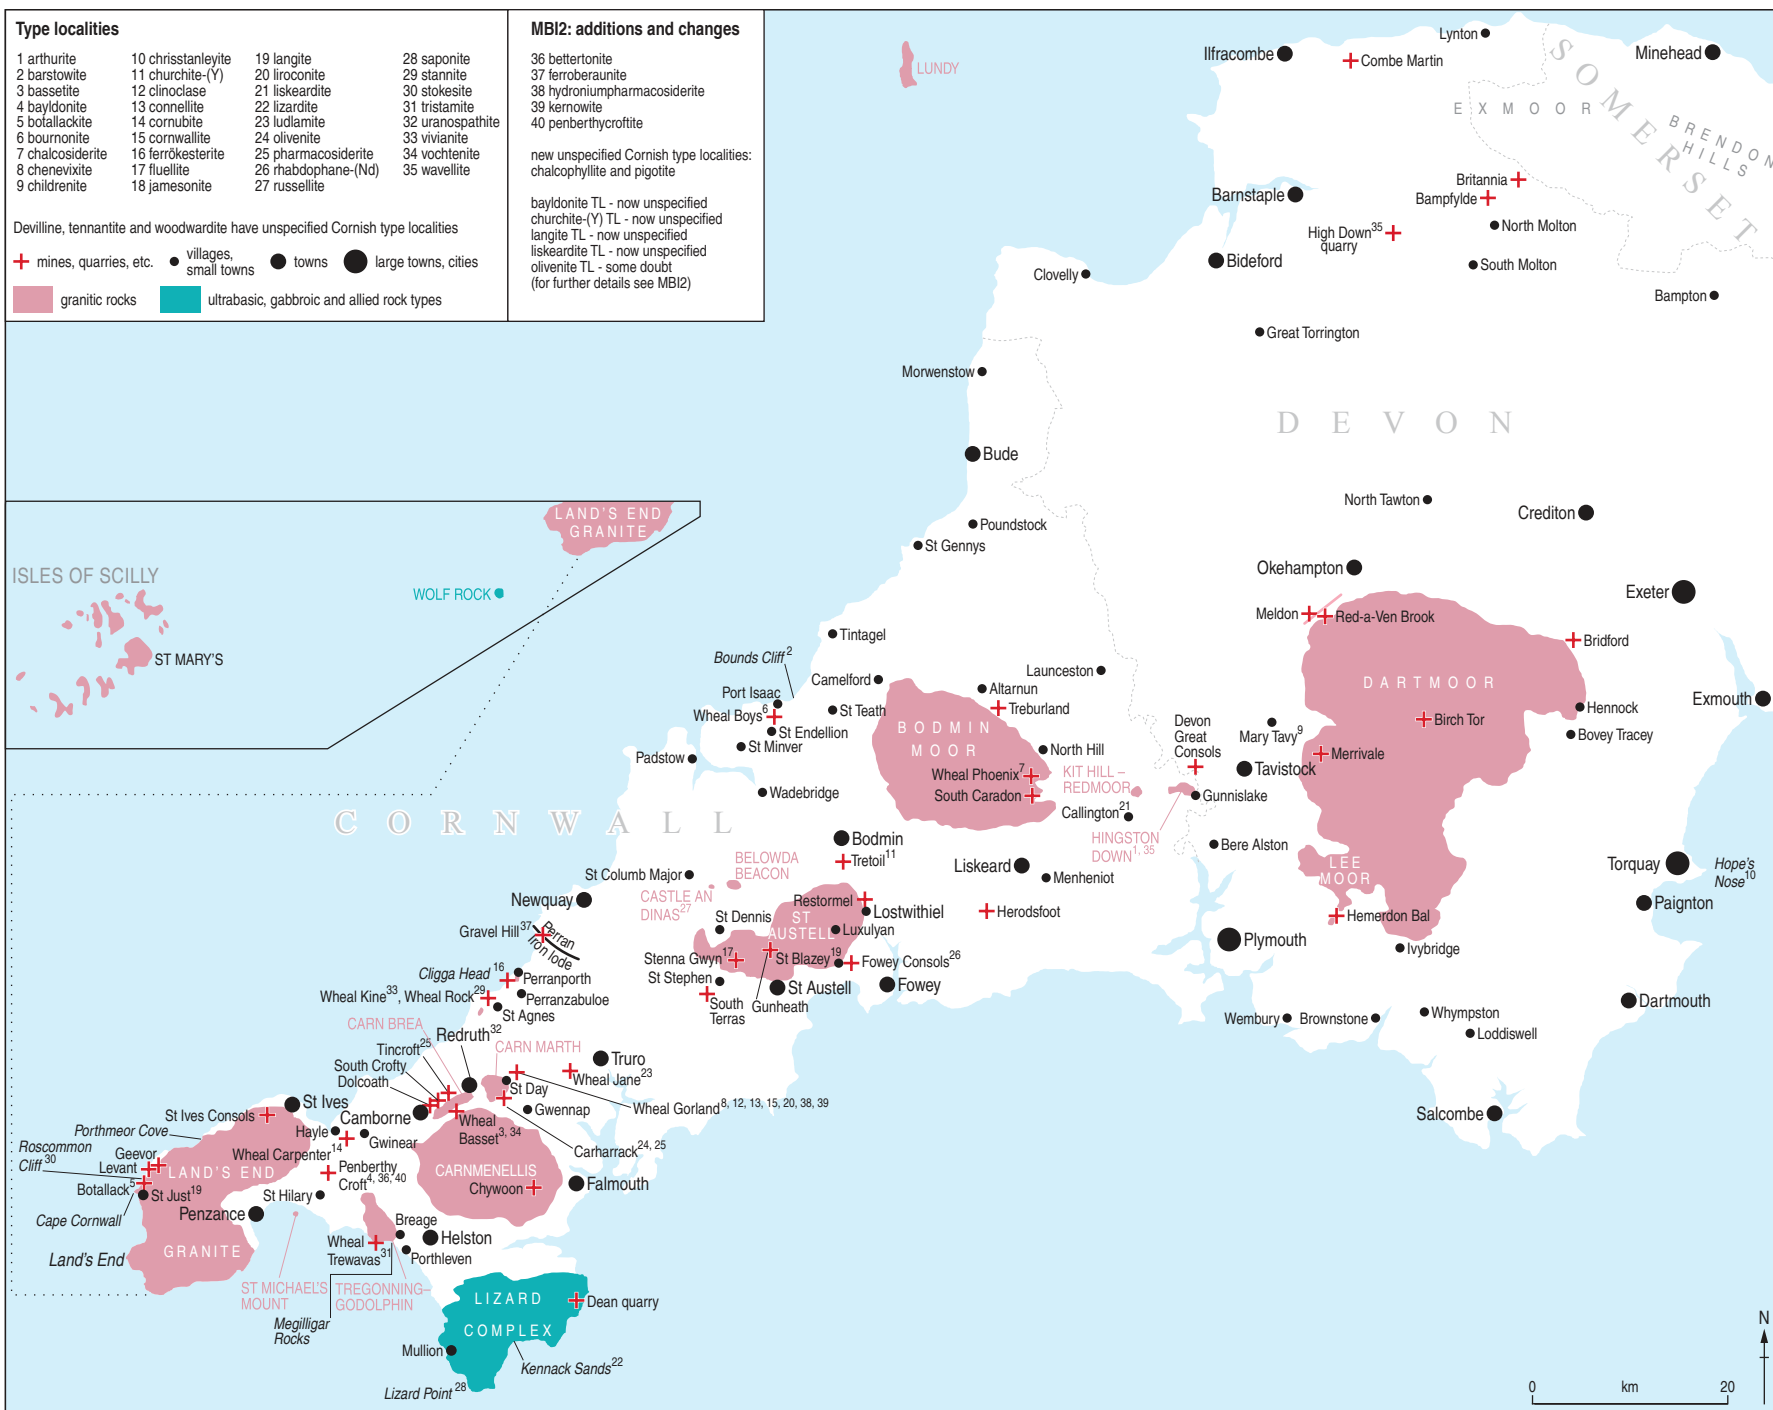

granitic rocks
 ultrabasic, gabbroic and allied rock types

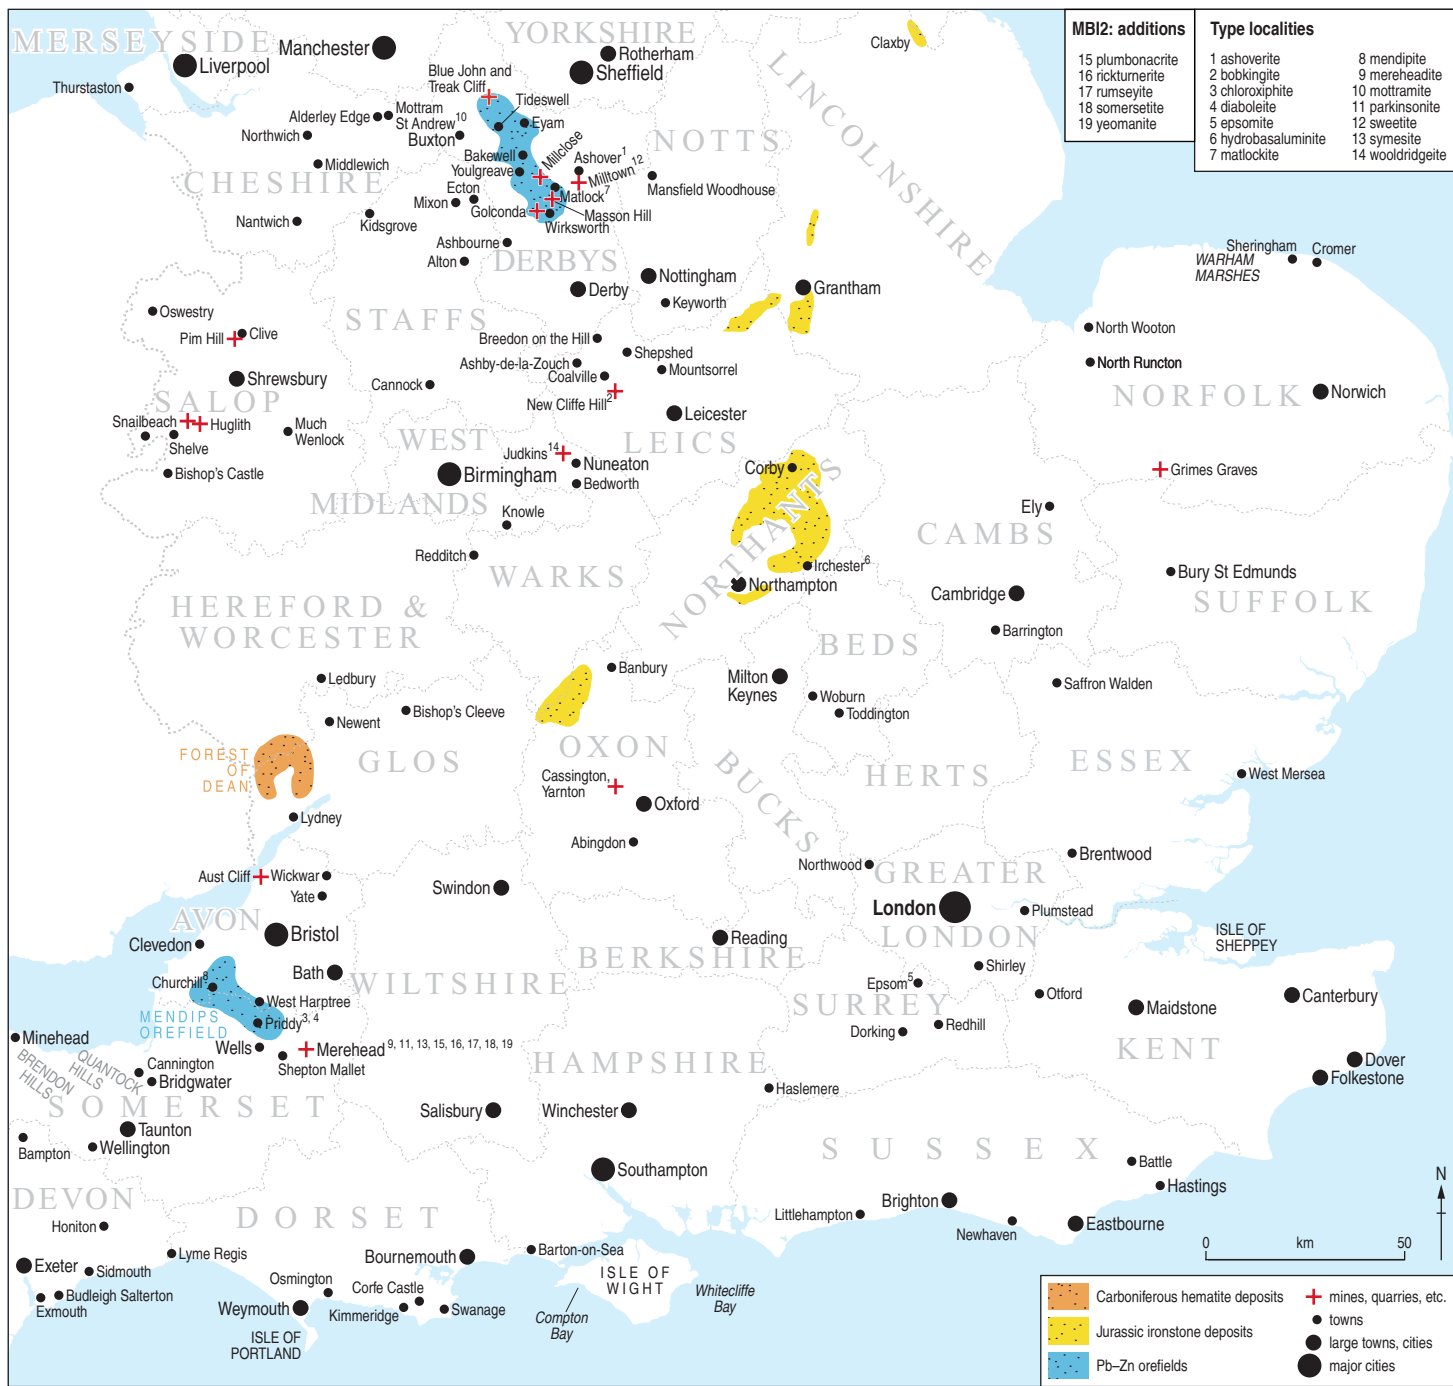

MBI2: additions and changes

36 bettertonite
37 ferrobaurite
38 hydroniumpharmacosiderite
39 kernowite
40 penberthydrofite

new unspecified Cornish type localities: chalcophyllite and pigotite

bayldonite TL - now unspecified
 churchite-(Y) TL - now unspecified
 langite TL - now unspecified
 liskeardite TL - now unspecified
 olivenite TL - some doubt
 (for further details see MBI2)

MBI2: additions

- 15 plumbonacrite
- 16 nicktumerite
- 17 rumseyite
- 18 somersetite
- 19 yeomanite

Type localities

- | | |
|---------------------|-----------------|
